### For commissioners

Read about our [research](#). Hear about [large scale implementations](#) of the Solihull Approach. See more about

### For parents

Award winning [online courses](#) about being a parent. Search for 'Understanding your child's behaviour'

### 4. Hover over your username and click on "My Parenting Group"

## 5. Then click on “Click to add a new parenting group” to add a parenting group

## My Parenting Groups

If you would like your group to appear to parents before you run it, you can log the basic details of where the group is running, what type of group it is, a contact number and the start date. The details of your group will then be shown on this website and on Ourplace, the website for parents.

You will also be allocated a webpage which you can use if you want to. The web page is created automatically from the data you input. You can then give your webpage address to the parents who have registered for your group, or use the webpage to advertise it in the Children's Centre or other relevant place. You will soon be able to print it off as a poster.

Immediately after you have completed your group, please log the details at [My Data Returns](#). We only require who ran the group, where, what type of group and how many parents started and finished the group. Many, many thanks!
